Alihan Yılmaz

Front-end Developer

Izmir, Turkey | alihanyiilmaz@gmail.com | 0543 779 77 69 | alihanyilmaz.com

Education

Turkish Aeronautical Association University
Sep, 2017 - Jun, 2022

Computer Engineering
3.1/4.0

Projects

Twitter Clone

I built Twitter Clone with using ReactJS, PostCSS, and NextJS. I also used Storybook to create an organized UI system. To display tweets, I used Twitter API.

COVID-19 Tracker

I built a COVID-19 Tracker App with NextJS, ReactJS, SCSS. I also used Chart JS to display data in a chart and Fetch API, Axios to get data.

Frontend Mentor Challanges

I built different components and layout pages with HTML5, CSS3, VanillaJS. Most of them are built with a mobile-first approach.

JS30

I built 30 different things in 30 days with VanillaJS. I used different Web APIs including Canvas API, Fetch API, Geolocation API, Web Audio API, SpeechRecognition, and SpeechSynthesis API.
